

October 14, 2025

Dear Patients,

We are pleased to announce that Douglas Heiner, MD, is joining Granger Medical Clinic as a double board-certified Dermatologist and Mohs Micrographic Surgeon beginning November 10, 2025. We are excited to welcome Dr. Heiner and look forward to the expertise, compassion, and patient-centered care he will bring to our dermatology team and the community we serve.

Dr. Heiner has dedicated his career to providing comprehensive skin care, with a particular focus on skin cancer detection, treatment, and reconstruction. His philosophy is simple — to combine advanced medical expertise with compassion and clear communication, so that the patient feels informed, comfortable, and confident in the care they receive.

Before joining Granger Medical Clinic and returning to Utah, Dr. Heiner practiced for 10 years at North Valley Dermatology in Arizona, specializing in Mohs surgery and general dermatology. He completed his dermatology residency and fellowship in Mohs Surgery at the Boston University School of Medicine at Roger Williams Medical Center, where he was chief resident and later a clinical instructor. He earned his Doctor of Medicine through the University of Texas Medical Branch in Galveston, where he graduated Magna Cum Laude with Research Honors.

Throughout his career, Dr. Heiner has been recognized for excellence in research, leadership, and compassionate patient care, including induction into the Gold Humanism Medical Honor Society and receipt of the John P. McGovern Award in Oslerian Medicine. He has presented his research at national and international meetings. Dr. Heiner and his wife, both originally from Salt Lake Valley, are excited to move back to Utah with their family.

We are delighted to have Dr. Heiner join Granger Medical Clinic and are confident that his expertise and dedication will have a meaningful impact on our patients and community.

To schedule an appointment with Dr. Heiner, please call **801.965.2799**. We will be happy to assist you.

Warm regards,

Granger Medical Clinic
